Our plant health care technicians are encouraged to keep up with new research and spearhead innovative programs and techniques. A few of our programs developed by our plant health care technicians include; organic mosquito programs, beneficial insects release programs, and native pollinator gardens.

Requirements:

- Excellent communication skills
- Forward thinking and self-motivated.
- Superior knowledge to perform all functions of the integrated pest management program (administration, scheduling, inspections, sampling, treatments, inventories, equipment maintenance, record keeping, report writing, and customer relations).
- Ability to identify a wide range of plant species and to treat a comprehensive variety of diseases, disorders, damaging insects.
- Drive and enthusiasm for a continuing education.
- Must possess knowledge of the PHC products and the ability to operate all of the PHC equipment RTEC utilizes.
- Must possess or be able to obtain all proper licenses and certifications.
- Must have a drivers license (CDL a plus)

ARE YOU A GOOD FIT?

One of the hallmarks of an RTEC employee is the tenacious pursuit of doing the right thing. This value is found at every level of RTEC Treecare. At the end of the day, we want to make sure our clients feel as though we have done the right thing for them and their trees.

Whether that's:

- Owning up to a mistake
- Telling the client the hard truth about the health of their tree
- Proposing solutions instead of quick fixes
- Taking that extra step to make sure the client is satisfied

But doing the right thing doesn't stop there. ***As a company, we promise to do the right thing for our employees too.*** This mutual level of respect and professionalism allows us to work as a team and grow the company as well our individual skills.
